Undergraduate and Graduate Catalog

2021-22

Kingdom College aims to be faithful to the provisions of this catalog. However, Kingdom College reserves the right to alter or modify the college catalog policies at any time without notice. Policies regarding financial costs, admissions requirements, and college course offerings are subject to change after the date of publication but prior to the creation of an updated catalog. The most current policies can be found on the Kingdom College website and are also available in hard copy in the Registrar's Office. The responsibility for fulfilling the requirements for a degree lies with the individual student. All requirements must be met before a student can be awarded a degree. Upon the date of enrollment, students are required to follow the provisions of the degree requirements in effect upon the date of enrollment at Kingdom College. Students must also complete these degree requirements within five years of enrollment, or students become subject to updated degree requirements. Also, any changes in requirements in earning a degree imposed by an accrediting agency, state board, or the Alabama Department of Education must be fulfilled before a student can be awarded a degree. Any student who withdraws from Kingdom College for more than one semester will be bound by the terms in the catalog at the time of his or her return. This catalog does not signify a contract between any person and the College. Any questions or inquiries about this catalog or its contents must be made at the Registrar's Office.

Dear Student,

Welcome to Kingdom College! We would like to thank you for considering us and allowing us to be a part of the journey to connect your calling to the mission and vision God has set forth for your future. We consider it an honor to be a part of your journey. Further, we accept the responsibility to see you through your program in such a manner that your experiences at Kingdom College will provide you with pride in the accomplishments and achievements you garner while attending.

The programs at Kingdom College have been carefully crafted to offer the very best in instruction in the fields of study they represent. Our professors are dedicated to training and equipping students to fulfill their calling and providing them with a sound foundation upon which to experience success in their chosen field. Classes are designed for not only content, but also application. In addition to the knowledge gained in each student's field of study, opportunities are available to apply that knowledge while gaining wisdom in the field through practicums and internships.

Studies at Kingdom College are current and allow students the flexibility to work and train in their fields at a pace suited to individual needs through hybrid classes and an online presence. Independent studies can be designed to help students needing an extra class in time for graduation or to catch up with a cohort group. Kingdom College provides as much flexibility as possible to assist students with the varying circumstances that can arise. This catalog is designed to help students gain the greatest benefits from their chosen program.

This catalog serves as a guide to help you structure the time spent at Kingdom College while working through your program. It is designed to show you what your program looks like in its entirety and also the individual courses. Your counselor will be able to assist you with your scheduling as you need it. Because

your professors are also aware of specific program needs and requirements, we encourage you to discuss your program with your professors if questions arise. In closing, let me say again that we are honored by your choice to become a part of Kingdom College. We are praying for you as we work together to achieve your calling.

Sincerely,

Virginia T. Mayer, Ed.D., LPCS

President

MISSION: A Christian college dedicated to equipping His people on the undergraduate and graduate level for works of service. (Ephesians 4:12–13).

VISION: A Christian college sending forth His people empowered by the Holy Spirit through love to fulfill His divine plan. (Acts 1:8 and Matthew 28:19).

POLICY GOVERNING DISCRIMINATION

Kingdom College is committed to providing equal opportunities to all employees and applicants as defined under federal and state law. Kingdom College does not discriminate on the basis of race, color, mental or physical disability, national origin or ancestry, citizenship, age (age 40 or older), gender, sex, pregnancy, genetic information, marital or familial status, veteran or military status, membership in the Uniformed Services, or any other characteristic protected by law. As a religious educational institution, Kingdom College reserves the right to hire employees who share a commitment to the Christian faith. Unlawful employment discrimination and harassment by managers, supervisors, employees, vendors, clients, and contractors will not be tolerated. This Policy governs all aspects of employment, including selection, job assignment, compensation, discipline, termination, benefits and training. It applies to all work-related settings and activities, whether inside or outside the workplace, and includes business trips and business related social events. Employees who believe they have been subjected to any form of unlawful discrimination or retaliation, or have questions about this policy or inquiries regarding a specific employment issue should contact the Human Resources Department. Employees can raise concerns and make reports without fear of reprisal, as retaliatory behavior is prohibited. Kingdom College reserves the right to maintain its destiny as a Christian witness in higher education and asserts its right to employ and retain only those persons who subscribe to and support the intent, mission, and Statement of Faith as presented in the Employee and Faculty Handbook. The Director of Human Resources serves as the Equal Opportunity Officer and is responsible for the overall college implementation and coordination of the equal employment opportunity efforts. Any individual who believes she or he has been discriminated against on the basis covered under Kingdom College's Equal Employment Opportunity policy may contact Human Resources. An investigation of all such claims and appropriate action will be taken.

Student Rights and Responsibilities

It is the right and responsibility of each student to know and to be fully aware of the policies and procedures that exist at Kingdom College. These policies and procedures are expressed and laid out in the *Student Life Handbook*. In turn, it is the responsibility of each

student to be familiar with these policies and procedures, to be aware of important dates and deadlines posted on the academic calendar, to know the policies outlined in the *Kingdom College Undergraduate and Graduate Catalog*, to intentionally read course syllabi and be accountable for each professor's class requirements, and to proactively manage and maintain the requirements for his or her degree/field of study. Each student is expected to receive and respond to the various types of communication relayed at all levels of Kingdom College.

LIFE TOGETHER COVENANT*

Adapted from Taylor College and Dietrich Bonhoeffer's **Life Together Covenant*

Responsibilities and Expectations for Community Life at Kingdom College

Kingdom College is a community of Christians intentionally joined together for academic progress, personal development, and spiritual growth. The mission of Kingdom College is to establish a pathway dedicated to preparing, equipping, and empowering educators, counselors, ministers and social workers to serve and minister globally to God's people in unity of the faith through the Word of God. This community is not defined by geography, but rather by engagement in the Kingdom College mission.

The Life Together Covenant (LTC) identifies the expectations for thriving in community as we seek to fulfill our mission. It is impossible to create a community with expectations totally acceptable to every member. Nevertheless, certain responsibilities and expectations must be specified to assure orderly community life. When individuals join the Kingdom College community, they freely and willingly choose to take upon themselves the responsibilities and expectations outlined in this covenant. The expectations of Kingdom College are not intended to measure spirituality or to promote legalism. Nevertheless, Galatians 5:13-14 reminds us that while we were called to be free, our freedom is best used when we serve one another in love (Romans 14:1-23; 1 Corinthians 8:1-13, 10:23-33).

A foundational support for the LTC is the Kingdom College Statement of Faith. The Statement of Faith affirms that the Bible is the inspired and authoritative word of God, and it provides the essential teachings and principles for personal and community conduct. The Statement of Faith also affirms the presence of the Holy Spirit in every believer; God, through the Holy Spirit, places in every believer the inner resources and attributes to minister to others through supportive relationships.

Statement of Faith

Kingdom College is firmly committed to the Lordship of Jesus Christ and evangelical Christianity. To assure the central place of Christian principles in the philosophy and life of the College, the trustees, administration, faculty, and staff believe the following:

- There is one God, eternally existent in three persons—Father, Son, and Holy Spirit—the ultimate Creator and Sustainer of all things in heaven and on earth.

- The Holy Bible is the inspired and infallible written word of God, progressively revealing God's will for humankind.
- Jesus Christ is the Living Word of God who made known and carried out God's plan of redemption through His virgin birth, sinless life, atoning death, bodily resurrection, and ascension, and who will return in power and glory.
- The Holy Spirit is present in the life of the believer, testifying to the Lordship of Christ and enabling the believer to live a godly life.
- Man, though uniquely created in God's image, rebelled and stands in need of redemption.
- God graciously extends salvation to anyone who comes to Christ by faith.
- The Church is the community of believers who express their unity in Christ by loving and serving Him and each other.

BIBLICAL RESPONSIBILITIES AND EXPECTATIONS

Responsibilities for Loving God, Others, and Self

We glorify God by loving and obeying Him. Because we are commanded to love one another, relationships and behaviors that reflect such love confirm our allegiance to God and are glorifying to Him (Matthew 22:36-40; John 15:11-14; Romans 15:56). Being in daily fellowship with other Christians is a privilege and an expression of God's will and grace. In recognition of this privilege, great value is placed on the quality of relationships in our community. We acknowledge that we are participating in a fellowship where we are dependent on and accountable to one another. The New Testament word for fellowship is *koinonia*, which is translated as a close mutual relationship, participation, sharing, partnership,

contribution, or gift. Members, therefore, are encouraged to seek opportunities to demonstrate *koinonia* (1 Corinthians 12:12-31; Ephesians 4:1-6).

All people are created in the image of God, and each person is known by God and knit together in the womb with intentional design. God's attention to creative detail is uniquely applied in each person in whom is given the capacity to love God with heart, soul, mind, and strength. The commandment to love our neighbor as ourselves reminds us of our potential to minister to others while at the same time recognizing our own need for care and support (Psalm 139:13-14; Mark 12:29-31; 1 Corinthians 6:19).

Responsibilities for Community

Within the Kingdom College community the greatest expression of fellowship and the highest principle for relationships is love. Since God first loved us, we ought to demonstrate love toward one another (1 John 3:11, 16, 18; 4:7-21). For the purpose of our community, we have identified the following specific expressions of love as being among the most desirable.

- ***Esteeming One Another***—We expect each member of the Kingdom College community to strive consciously to maintain relationships that support, encourage, and build up one another (Romans 15:1-2).
- ***Making Allowance for One Another***—Because of our sin nature, difficulties in relationships do occur. In such cases we are to respond with compassion, kindness, humility, gentleness, and patience, making allowance for each other and forgiving one another (Colossians 3:12-13).
- ***Caring for One Another***—We are responsible to come alongside those experiencing grief, discouragement, illness, tragedy, or other personal trials. Expressions of bearing one another's burdens include comfort, encouragement, consolation, and intercession (Galatians 6:2).

- ***Respecting One Another***—Because of the God-given worth and dignity of individuals, each member of the community is expected to be sensitive to the image of God created in every person. Therefore, discrimination against others on the basis of race, national origin, age, gender, or disability is not acceptable. Any kind of demeaning gesture, symbol, communication, threat, or act of violence directed toward another person will not be tolerated (Colossians 3:11-14; 1 John 3:14-18).

Expectations for Individual Attitudes and Behavior

In addition to subscribing to the section on Biblical Responsibilities, members of the Kingdom College community voluntarily commit themselves to the following expectations of behavior. This commitment results from the conviction that these expectations serve the common good of the individual and the institution. These expectations are not set forth as an index of Christian spirituality but rather as values and standards of Kingdom College and guidelines that serve to preserve the ethos of the college community. Furthermore, they reflect our commitment to helping each other grow in maturity and in the ability to make wise choices. Because of the importance of trust and responsibility to one another, violations of these expectations are regarded as a serious breach of integrity within the Kingdom College community. The following expectations apply to all members of the campus communities: the faculty, staff, visitors, and students of Kingdom College.

Prohibited Behaviors—Specific behaviors are expressly prohibited in Scripture and therefore are to be avoided by all members of the community. They include theft, lying, dishonesty, gossip, slander, backbiting, profanity, vulgarity, crude language, sexual immorality (including adultery, homosexual behavior, premarital sex, and involvement with pornography in any form), drunkenness, immodesty of dress, and occult practice (Mark 7:20-23; Romans 13:12-14; 1 Corinthians 6:9-11).

Academic Integrity and Truthfulness—As a Christ-centered college community we apply biblical responsibilities for honesty to all forms of academic integrity. Plagiarism is forbidden; we expect truthfulness and fidelity to be expressed in every learning context (Luke 16:10; Ephesians 4:25).

Submission to Civil Authority—In keeping with scriptural admonitions to bring ourselves under the authority of the government, members of the Kingdom College community are expected to uphold the laws of the local community, the state, and the nation. An exception would be those rare occasions in which obedience to civil authorities would require behavior that conflicts with the teaching of the Scripture. On such occasion, each individual would submit voluntarily to the penalty for his or her behavior (Romans 13:1-7). Behavior resulting in arrest on or off campus is subject to review within the Kingdom College disciplinary procedures.

Illegal and Legal Substances—Kingdom College prohibits the possession, use, or distribution of illegal substances and the abuse or illegal use of legal substances, including prescription and over-the-counter medication.

Tobacco—Kingdom College and all of its campuses are tobacco-free to include smokeless tobacco and electronic cigarettes.

Alcoholic Beverages—Kingdom College and all of its campuses are alcohol-free. Alcoholic beverages are not permitted at any college functions or programs on or off campus.

Gambling—Gambling (the exchange of money or goods by betting or wagering) is not acceptable at Kingdom College or any of its campuses.

Respect for the Property of Others—Everyone is expected to respect the property of others, including college property, private property on and off campus, and public property. The intellectual property of others is also to be respected.

Policies and Procedures—Compliance with the day-to-day policies and procedures of the college community is expected from all. These routine items are listed in the Student Handbook, the Employee and Faculty Handbook, and the Undergraduate and Graduate Catalog. All student complaints will be documented and submitted first to the Director of Student Life. If the complaint cannot be settled at that level, it will be submitted forward to the appropriate area or department for review, following our Judicial and Student Complaint Guidelines.

Multicultural Philosophy Statement

We believe in equality for all people as embedded in biblical teachings and as an integral part of the Christian commitment. We acknowledge that this is affirmed in the *Constitution of the United States of America*. We believe in an environment in which people can live and work cooperatively, valuing the multiple cultures from which they have come without violating institutional values. We believe in multicultural education as an interdisciplinary effort to prepare graduates who understand, appreciate, and work effectively with those who are different from themselves. We believe in global interdependence, implying the need to graduate individuals capable of functioning as global citizens.

Sanctity of Life Statement

Scripture affirms the sacredness of human life, which is created in the image of God. Genesis 1:27 (NIV) states, “So God created man in His own image, in the image of God He created him; male and female He created them.” Therefore, human life must be respected and protected from its inception to its completion.

Conclusion

The book of Colossians provides an appropriate summary of the goals for our community:

“Therefore, as God’s chosen people, holy and dearly loved, clothe yourselves with compassion, kindness, humility, gentleness and patience. Bear with each other and forgive one another if any of you has a grievance against someone. Forgive as the Lord forgave you. And over all these virtues put on love, which binds them all together in perfect unity. Let the peace of Christ rule in your hearts, since as members of one body you were called to peace. And be thankful. Let the message of Christ dwell among you richly as you teach and admonish one another. And whatever you do, whether in work or deed, do it all in the name of the Lord Jesus, giving thanks to God the Father through him (Colossians 3:12-17 TNIV).”

GENERAL INFORMATION

Kingdom College is a Christian college that acknowledges, appreciates, and reveres God’s preeminence and sovereignty over the world He has created. Nothing is impossible with God, and all learning is from God. All Truth is God’s Truth (Colossians 1:15-17). The administration and faculty at Kingdom College understand that knowledge alone is inadequate. Wisdom is necessary to be well-educated. With that in mind, the administration and faculty of Kingdom College seek to acquire God’s wisdom by discovering God’s Truth that is present in general revelation and also by seeking to understand the spiritual significance of God’s sovereignty. The administration and faculty of Kingdom College seek to train students to advance this godly wisdom in their sphere of influence. To that

end, students are hereby informed that Kingdom College is an evangelical Christian college.

Academic Year

Kingdom College organizes its school year according to a semester calendar system. Each semester occurs for a minimum of 16 weeks. The academic year for all undergraduate and graduate programs includes the fall and spring semesters running from August until May. In addition to the academic year, Kingdom College offers summer-session courses. The summer semester will be a minimum of 10 weeks long. Some courses may be offered in the format of intensives and/or weekend classes.

Location of Classroom Instruction

Kingdom College will utilize the following five locations for classroom instruction:

- Harvest Church, 2727 Fortner St, Dothan, AL 36305
- Headland United Methodist Church, 103 W. King Street, Headland, AL 36345
- Living Waters Counseling, 2130 County Road 125, Headland, AL 36345
- Northside Methodist Academy, 2600 Redmond Rd, Dothan, AL 36303
- Administrative Offices for Kingdom College are located at 208 S. Main Street, Headland, AL 36345.

ADMISSIONS

Kingdom College operates under an admission philosophy that welcomes students who have the aptitude for future academic success into an intentional Christian community. The Office of Admissions operates under standards and policies developed by the administration and faculty and consider a student for admission based on academic aptitude, preparedness, integrity, maturity, and motivation.

Kingdom College does not unlawfully discriminate on the basis of race, color, national origin, religion, sex, age, disability, genetic information, or veteran status in admission to or access to the programs within the College.

When to Apply

Application for admission should be made well in advance of the expected enrollment date. Applications may be submitted as early as the summer following completion of the junior year of high school. Applications for admission can be made until one month before the semester that the student will begin classes. **For Dual Enrollment admission deadlines, contact the Kingdom College Administrative Office.*

How to Apply

1. Apply at the Kingdom College website www.kingdomcollege.net. Complete online application and pay the nonrefundable application fee: \$25 for undergraduate students or \$35 for graduate students. Read and sign the Statement of Faith.

2. Request ACT, SAT, or CLT scores to be sent to Registrar's Office. Foreign students must submit a TOEFL score.
3. Submit official high school and/or college transcripts directly to the Registrar's Office.

Undergraduate Admission Requirements

1. Graduation from an accredited high school. **An unaccredited high school transcript will be reviewed if it meets the same standards as an accredited high school.** An applicant who is not a high school graduate must provide official test results from the GED. A passing score must be reported.
2. A composite score of 18 or above on the ACT or 940 or above on the SAT and at least an academic 2.0 GPA.
3. One (1) character reference. This form may be downloaded, completed by each character reference, and submitted to the Registrar's Office.
4. Background screen checks. Because each program of study contains some form of a clinical component, you may have a background check and/or drug screen at the discretion of Kingdom College. The student will be notified prior to this occurring, will be asked to sign a waiver, and will be responsible for the costs associated with the background check.

Freshman Entry

An official high school transcript is required for students with less than 12 hours of transferable academic credit, earning a 2.0 grade point average or higher. ACT

score of 18 or higher and SAT score of 940 or higher is part of the standard admission requirements. Home school students are encouraged to apply for review. A passing score on the GED must have been achieved for those students that have taken this exam.

Graduate Admission Requirements

1. Apply at the Kingdom College website www.kingdomcollege.net. Complete online application and pay the nonrefundable application fee: \$35 for graduate students. Read and sign the Statement of Faith.
2. Submit official transcripts from all previously attended colleges and universities. Standard admission will be considered for those students with a 2.25 GPA on the degree-granting baccalaureate transcript and those who have completed the MAT with a score of 370 or higher or the GRE with a combined verbal and quantitative score of 274. College of Education standards require a 2.75 grade point average, with no provisional entry based on the grade point average, or a Class B (Baccalaureate certificate). Provisional entry may be considered on exam scores for all Graduate students upon review of over-all credentials.
3. One (1) letter of recommendation from an advisor, colleague, supervisor, or member of community. We request that this letter not be from a family member without college approval.
4. Background screen checks. Because each program of study contains some form of a clinical component, you may have a background check and/or drug screen at the discretion of Kingdom College. The student will be notified prior to this occurring, will be asked to sign a waiver, and will be responsible for the costs associated with the background check.

Transfer Students

Undergraduate students who have completed 12 hours of academic transfer credit from an approved college/university with a 2.0 grade point average or higher will also be granted standard admission. A student who desires to transfer college credits from another college/university must submit an official, current transcript of all college coursework attempted. A student who has completed at least 12 hours of transferable college coursework may be exempt from submitting SAT or ACT scores.

Graduate transfer credit will be evaluated by the advisor and Dean of the School for the respective program.

A minimum of twenty-five percent of the degree must be completed with Kingdom College at the undergraduate level. Per the STARS agreement in Alabama, no more than 60 hours may be transferred from a Community College toward a 120 hour baccalaureate degree. Thirty-three percent must be completed with Kingdom College for graduate degree programs.

Nontraditional Admission

Students aged 24 and older must meet the same requirements as traditionally admitted students, with the exception of admissions test scores. These students are not required to submit ACT, SAT, or CLT scores for admission to Kingdom College. This also applies to veterans of any age.

**Kingdom College reserves the right to make a decision for nontraditional admission on a case-by-case basis upon review of overall credentials. Provisional admission may be considered for any students initially submitting unofficial documents. Official documents must be received prior to the second semester of registration in order to clear provisional admission.*

Returning Students

A student who withdraws from Kingdom College for more than one calendar year will be subject to the degree requirements in the Academic Course Catalog at the date of return, rather than the original date of enrollment in Kingdom College, if any changes have transpired. This student must reapply through the Office of Admissions and pay the designated application fee. The administration and faculty will exercise due diligence when catalog changes are made.

Transient Students

Students who would like to attend a course offered by Kingdom College and transfer that course back to their home institution may do so with official written authorization from that college or university. Students approved by another institution to attend Kingdom College are considered transient when the intent is to return to that college or university. An application for admission is required and a transcript may be requested from the home institution.

Early Acceptance

A student who demonstrates exceptional academic success may receive early acceptance to Kingdom College. This applies to a student who begins receiving college credit after the junior year of high school while still attending high school.

Dual Enrollment

Kingdom College allows cooperating high schools to allow students to receive both high school and college credit for certain courses that apply toward their coursework required for graduation. Each of these students must be in either grade 10, 11, or 12. The student must obtain a recommendation from the high school guidance counselor or principal. In addition, the student's grade point average must be at least 2.5 unless the County or School System that the student is coming from states otherwise. Students must also meet all other admission criteria to begin classes with the exception of high school graduation.

GRADING POLICY

Grading Scale

Letter grades are assigned for all courses, for which students have registered as follows:

A	Excellent	90-100
B	Good	80-89
C	Average	70-79
D	Poor	60-69
F	Failure	below 60
W	Withdrawal	
I	Incomplete	
P	Non-Credit	
AU	Audit	

At the undergraduate level, grades of A, B, and C are considered satisfactory. Students should be aware that many colleges and universities will not accept grades of “D” for transfer, and these courses should be repeated before attempting transfer. At the graduate level, grades of A and B are considered satisfactory. Grades of C or lower are below standard for graduate work, and normally will not be considered as transferable credits. Yet, up to two C’s may be considered when fulfilling degree requirements as long as the specific course doesn’t require a B or better (Research, Internship, Practicum, etc.).

A grade of “W” will be assigned to students who officially withdraw from the College or a particular course according to College policy. A grade of incomplete “I” will be assigned, at the discretion of the instructor, when all required work for a course is not completed by the end of the semester in which the course is taken. A grade of “I” must be cleared by the first day of final exams of the following semester. If the grade of “I” is not cleared, a grade of “F” will be assigned. It is the student’s responsibility to follow up with the College to ensure the grade of “I” has been appropriately changed.

Students may access their grade report and a variety of other student information items online. Official transcripts must be requested from the Registrar’s Office or online. No credit will be awarded for courses in which the student is not registered and for which all tuition and fees are not paid. All discrepancies in student schedules and registration must be resolved during the semester in which they occur or before the first day of class for the next term.

Credit Hour Policy

Purpose and Scope of the Policy

This policy defines the credit hour at Kingdom College in accordance with federal Program Integrity Regulations and requirements of the Southern Association of Colleges and Schools Commission on Colleges. The credit hour policy applies to all courses at all levels (undergraduate, graduate, and professional) that award academic credit regardless of the mode of delivery. Academic teams are responsible for ensuring that credit hours are awarded only for work that meets the requirements outlined in this policy.

Federal Definition of a Credit Hour

For purposes of the application of this policy and in accord with federal regulations, a credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonable approximates

1. Not less than one hour of classroom or direct faculty instruction and a minimum of two hours

out of class student work each week for approximately fifteen weeks for one semester or
trimester hour of credit, or ten to twelve weeks for one quarter hour of credit, or
the equivalent
amount of work over a different amount of time, or
2. At least an equivalent amount of work as required outlined in item 1 above for
other academic
activities as established by the institution including laboratory work, internships,
practicum, studio work, and other academic work leading to the award of credit
hours.

Kingdom College Credit Hour Policy

Kingdom College exceeds the Carnegie unit for contact time: 900 minutes of classroom or direct faculty instruction and a minimum of 1800 minutes of out-of class student work for each credit awarded. Kingdom College defines a class hour as 60 minutes. The expectation of contact time inside the classroom and student effort outside the classroom is the same in all formats of a course, whether it is fully online, a hybrid of face-to face contact with some content delivered by electronic means, or one delivered in lecture or seminar format.

Guidelines for the Implementation of Kingdom College's Credit Hour Policy

Traditionally-delivered (face-to-face) courses on the 15-week semester: A 3 hour course must have 2700 minutes of classroom instruction. Condensed courses: Classes meeting on an accelerated schedule will have the same number of instructional minutes (2700 for a 3 hour class) as those taught in the 15-week semester. A faculty member who, with requisite approval by the dean's office, wishes to move some of the required direct instructional time to a web-based environment or to another out-of class experience for pedagogical reasons must clearly delineate in the syllabus the additional out-of-class experiences that will substitute for in-class instruction. Such experiences must exceed assignments required for the fully face-to-face version of the course in order to count toward direct instructional time and must be required, structured, and faculty directed. Faculty are responsible for designing their courses to ensure the required number of direct instructional minutes each week, as well as the expected additional student preparatory work (two hours for each hour of direct instruction). Deans' offices are responsible for reviewing and monitoring any proposed deviations from the regular face-to face class schedule.

Hybrid or Online Courses: A course that is delivered partially or fully online must meet the same requirements of 900 minutes of direct instruction and 1800 minutes of student work per credit hour.

Faculty teaching online or hybrid courses must account for 45 hours (2700 minutes) of direct instructional time for each 3 credit hour course. The syllabus must clearly delineate direct instructional activities, as well as any required synchronous activities required outside class session times indicated in the schedule. Courses carrying the same course number that are offered both face-to-face and hybrid/online must meet the same learning objectives, be organized around the same or comparable learning activities, and be assessed by similar, comparable assessments.

Activities that count toward direct instructional time include the following:

1. In-class instruction
2. In-class tests/quizzes
3. In-class student presentations
4. Online lectures/instruction (synchronous or asynchronous)
5. Virtual synchronous class meetings
6. Case studies
7. Group Wiki projects
8. Video presentations
9. Journal/Blog writing
10. Chat rooms
11. Discussion boards
12. Field trips (including virtual)
13. Online tests/quizzes
14. Video conferencing
15. Virtual labs
16. Online content modules
17. Service learning
18. Group or team-based activities
19. Podcasts

Thesis/dissertation and Independent Study courses: Courses where students are working on independent projects, such as in thesis/dissertation hours and independent studies, will comply with the minimum of 180 minutes of student work per week over a 15 week semester or the equivalent amount of work distributed over a different period of time for each credit hour awarded. Laboratory

classes: One credit hour is assigned for 60 minutes or more of laboratory work per week throughout a 15-week semester. Performance/Recital/Ensemble: In accordance with the National Association of Schools of Music recommendations, 1 credit hour of ensemble work or applied music lessons represents a minimum of 3 hours of practice each week, on average, for a period of 15 weeks, plus the necessary individual instruction as defined by the major subject.

Internships, Clinical experiences, Student Teaching: Such experiential, field-based courses require a minimum of 3 hours of student work per week over the 15-week semester for each credit hour awarded. Student work includes clock hours at the field site and meetings with supervisors, as well as outside preparation and assignments. Programs may require more than the minimum 3 hours of student work per credit hour and may be guided by their specific accrediting bodies or applicable state regulations. Variable credit courses: Courses that are available for variable credit must fulfill the Kingdom College credit hour policy requirements and clearly articulate the expectations of student work for each credit hour.

Quality Points

To evaluate the scholastic standing of students, the following quality points are assigned to grades:

A - 4 quality points per credit hour

B - 3 quality points per credit hour

C - 2 quality points per credit hour

D - 1 quality point per credit hour

F - 0 quality points per credit hour

Students' scholastic standing or grade point average (GPA) is obtained by dividing their total number of quality points by the total number of semester hours for which the grades of A, B, C, D, or F are assigned, including physical education.

Any course for which the student has previously registered may be repeated at the undergraduate level. When a course is repeated, only the first attempt will be left out of the calculation of the grade point average. All other attempts will be used to determine the final grade point average. This policy is not carried over to the Graduate level. All grades received in Graduate School are used to determine the final grade point average of a student at that academic level. A letter grade of D is not passing at the Graduate level and must be repeated in the case of required courses or electives. An elective course, in this situation, may be satisfied by taking a different course.

Grade Appeal Policy

A student grade appeal may be expected to occur on an occasional basis. The philosophy of the College is that such appeals be handled informally if possible. In the cases involving a miscalculation or error in documenting, a Grade Change Form may be completed by the instructor and returned to the Registrar prior to the mid-term of the semester following the one in which the grade was assigned. However, if it is not possible to resolve the matter informally, then a grade appeal must be received in writing in the office of the Registrar by the midterm of the semester/term following the date the grade is issued.

All academic concerns relative to a final grade, except plagiarism, are subject to the steps outlined below. Please note that issues of plagiarism must be handled via the Judiciary Affairs Committee. Also, all issues related to plagiarism must be resolved before a grade appeal request can be addressed.

The following procedure for appealing a grade must be followed in the order listed:

- The student should first contact the instructor to request verification of the grade and how it was calculated.

- If resolved satisfactorily, the matter will be considered closed. If the grade is changed by the instructor, the appropriate procedure for changing grades will be followed.
- However, if the student does not reach a resolution with the instructor, the student should appeal to the Division Chair formally. The Division Chair will confer with the student and the faculty member, independently or jointly, in an attempt to reach closure. A copy of a grade appeal form must also be filed with the Registrar.
- If closure is not reached at this level, an Instructional Committee will review the circumstances presented. The written appeal must state the name of the course, the reasons for the request, the dates involved, the name of the instructor who assigned the grade, and previous attempts at resolving the situation.
- The appropriate Instructional Officer will forward copies of the student's request letter along with the instructor's and Division Chair's grade appeal response form and any supporting documentation from the student and the instructor to the Instructional Affairs Committee for a hearing. Members of the Instructional Affairs Committee will sit as the investigative body. If the Committee requests additional information for the hearing, the appropriate Instructional Officer will coordinate the collection of information. After the hearing, a final decision will be made. If the Committee decides a grade change is appropriate, that will be requested by written notification to the Registrar and the grade will be changed effective immediately. However, if the Committee decides that the grade will stand, the student will be notified in writing of that decision.
- The decision of the Instructional Affairs Committee is final and may not be appealed.

WITHDRAWAL POLICY

A student may withdraw from or drop an individual course until the published (See Kingdom College Academic Calendar) dates for fall, spring, or summer semester. After this period, students are expected to maintain their course loads. A student contemplating withdrawal from a course is strongly encouraged to contact his or her academic advisor before changing the schedule, as changes can result in delayed graduation. Also, plan for the impact dropping classes may have on insurance (health & auto), financial aid, and scholarships. Ask the Registrar/Financial Aid Officer about this. (Full-time status is 12 credit hours for undergraduate students, and 9 credit hours for graduate students.) A student may not withdraw from or drop individual courses in which penalty grades were assigned as a result of academic misconduct.

No permanent notation is made of a course that is dropped during the designated change of schedule period (drop/add). A course dropped after the designated end of the change of schedule period (drop/add) to the end of the published deadline to withdraw for each semester is indicated on the student's permanent academic transcript with a grade of W.

Withdrawal for Active Military Duty

For purposes of this section, active military duty means: service, whether voluntary or involuntary, in the Armed Forces, including service by a member of the National Guard or Reserve, on active duty, active duty for training, or full-time National Guard duty under a call or order to active duty of more than 30 consecutive days.

A student who has been admitted to or who has been enrolled at Kingdom College may request a withdrawal to fulfill a U.S. military obligation. The student should notify the Office of the Registrar and provide documentation of his or her call to service, and submit notification whether or not he/she intends to return to the College. Graduate students should also provide documentation to the Registrar. Withdrawal is not contingent on the student's notification of intent to return to the College. The intent to return is used as information for future communication with the student.

A student returning from active military duty may be readmitted per the readmission provisions in the Higher Education Opportunity Act of 2008 (Section 484C of the HEA) and implementing regulations in 34 CFR Section 668.18. A student can be promptly readmitted, providing he or she withdrew to fulfill a U.S. military obligation, was not dishonorably discharged from the uniformed services, and the cumulative length of his/her absence and of all previous absences from undergraduate studies due to military service did not exceed five years.

When a student is called to active military duty during an academic term, he or she may choose one of the following three options:

1. The student may request retroactive withdrawal to the beginning of the semester, with a full refund of tuition and fees.
2. If at least 75 percent of the term has been completed, the student may request that the faculty member assign a grade for the course based on the work completed. The final decision about grading is left to the faculty member.
3. If the faculty member assigns a grade of I, the student will have a minimum of two weeks after returning to campus to complete the course requirement. Additional time may be granted if alternative arrangements are made with the faculty member, and provided the alternative arrangement is in compliance with

Alabama Code S3 31-12-3. This requires individuals be restored to the educational status he or she had prior to military duty, without the loss of academic credits earned, scholarships or grants awarded, or tuition and other fees paid prior to the commencement of military duty.

Withdrawal for Spouses of Service Members Called to Active Duty

A student who is the spouse of a service member called to active duty qualifies for the same withdrawal options that apply to service members. The student should notify the Office of the Registrar and provide documentation of the call to service, and submit notification whether or not he/she intends to return to the College. Graduate students should also provide documentation to the Registrar. Withdrawal is not contingent on the student's notification of intent to return to the College. The intent to return is used as information for future communication with the student.

Important Note: After the Last Day to Drop with a W, a student must petition the college office for approval to withdraw or drop for reasons beyond the student's control. The presumption is that the student CANNOT withdraw without extenuating circumstances, which must be documented. Specifically, the student cannot drop/withdraw because he or she isn't doing well in the class after the deadline. The College allows a sufficient amount of time to make this judgment call and to ask for guidance. This note also applies to any retroactive withdrawal or drop. Supporting documentation is required in the withdrawal appeal process. These documents can be submitted via email to the Registrar: pjhamm@kingdomcollege.net. Typically these documents include: professor confirmation of the last day attended, death notices or obituaries, doctor's notes, etc. The Withdrawal Appeal Form can be obtained by contacting the Registrar.

There are many variables in determining if a balance will be owed when a student withdraws from all courses for any reason. Tuition and fee liability is based on the withdrawal date, not the reason for the withdrawal. The College is required to

*calculate the unearned semester percentage, return the amount of any unearned aid and the resulting balance remaining must be paid to the College. **The last date to withdraw each semester is published in the Kingdom College Academic Calendar.***

TUITION AND FEES

Kingdom College aims to offer an education to everyone who qualifies for admission, regardless of his or her financial readiness for college. It is for this reason that Kingdom College has sought to create affordability for its students. Kingdom College is primarily tuition funded. All expenses for each semester/term must be paid at the beginning of the semester. Any expenses not paid by the beginning of the semester will be assessed a finance charge which will be added to the amount due to Kingdom College. Any student with an outstanding balance at the end of a semester will be denied the opportunity to receive his/her grades, receive a transcript, or register for a future semester, unless arrangements are made with the Finance Office. Below is the breakdown of expenses per semester for students at Kingdom College.

Tuition: \$275 per credit hour (Undergraduate)

 \$375 per credit hour (Master's)

Fees: \$50 Registration

 \$100 Facilities

 \$100 Technology

 \$100 General

**For most current tuition & fees for Dual Enrollment courses, contact the Kingdom College Administrative Office.*

Refunds for Withdrawal

A student who withdraws from Kingdom College through a formal application with the Registrar, or who withdraws without notice, will receive adjustments to the refund of expenses or in financial aid reduction. The federal Title IV pro rata percentage will dictate the percentage of refund or reduction according to the amount of time spent in academic attendance if the student was the recipient of any form of financial aid or scholarships. The pro rata percentage determines the percentage adjustment at the time of withdrawal up through the completion of the 60 percent point in a class term. After the 60 percent point, a student has earned 100 percent of the financial aid and expenses incurred for a class term. The date that the student either formally or informally initiates the withdrawal process, in writing, or the last date of attendance, is considered to be the withdrawal date. If a date of intent to withdraw cannot be determined, the midpoint of a term will become the withdrawal date.

Refunds of unearned prepaid tuition, fees, and other charges shall be made in the following manner within thirty (30) days of termination. If cancellation occurs within the designated change of schedule period as posted on the Kingdom College Academic Calendar, all money paid by the prospective student shall be refunded. If a drop/withdrawal occurs after those published dates, but prior to midnight the very next Friday, 75% tuition only will be refunded for the hours dropped or withdrawn (this does not include fees, because fees are still due as originally charged). If drop/withdrawal occurs prior to midnight the next Friday, 50% tuition only will be refunded for hours dropped or withdrawn (this does not include fees, because fees are still due as originally charged). Finally, when drop/withdrawal happens prior to midnight the third Friday following the end of the designated change of schedule

period, 25% tuition may be refunded for hours dropped or withdrawn (this does not include fees, because fees are still due as originally charged). Once books and supplies are issued and received by students, these become the property of students and refunds may be made only at the discretion of the book store. This refund policy complies with the Federal Department of Education Title IV requirements.

Refunds for Involuntary Withdrawal or Dismissal

When a student is dismissed involuntarily for discipline reasons, he or she will receive a pro rata percentage reduction of financial aid. Kingdom College will refund tuition charges at one half the financial aid pro rata percentage.

Financial Aid

Financial need is primarily the means by which financial aid is offered at Kingdom College. Students must apply for financial aid for every year that they want to receive financial aid. Students must fill out the FAFSA (Free Application for Federal Student Aid) annually. If a student's college expenses exceed a family's financial resources, financial need exists. Students who have questions about financial aid should visit the Financial Aid Office.

SATISFACTORY ACADEMIC PROGRESS (SAP) POLICY FOR FEDERAL FINANCIAL AID

Federal regulations (Sections 668.16(e), 668.32(f) and 668.34) require that each school monitors the academic progress of each applicant for federal financial assistance and that the school certifies that the applicant is making satisfactory academic progress toward earning his/her degree. This determination of progress must be made at least once a year and before the financial aid office disburses any federal aid funds for the subsequent semester. At Kingdom College, students are

reviewed annually, prior to disbursement for the new federal student aid year, for compliance with the Satisfactory Academic Progress requirements.

Students who are aware of learning or other disabilities should immediately contact the Registrar's Office/Student Services Office, so that appropriate accommodations can be made. A student with a documented disability and functional limitations is still held to the same academic expectations as other students. If the student provides documentation when registering for classes, appropriate accommodations will be provided and the student should be able to maintain satisfactory academic progress for financial aid eligibility purposes.

Pursuant to Federal regulations, the following constitutes Kingdom College's Financial Aid policy on satisfactory academic progress for undergraduate students.

Maximum Credits/Courses to Earn Degree

The maximum time frame cannot exceed 150% of the published length of the program measured in credits/courses attempted with no appeal possible.

For example, if you are enrolled in an **undergraduate** program that **requires** 120 credits for graduation, the maximum time frame for students in these programs is 180 attempted credits ($120 \times 1.5 = 180$). Students whose programs require more or less than 120 credits for a degree will have a limit set by the 1.5 factor.

- **As expressed in years (examples):** Students in programs that are normally expected to complete a degree by the end of four years of full-time study will forfeit their eligibility to participate in federal financial aid programs after six years of full time enrollment ($4 \times 150\% = 6$).
- **Withdrawals:** Grades of W are counted as courses attempted and count toward the maximum time frame.

- **Incompletes:** Grades of I are counted as courses attempted and count toward the maximum time frame.
- **Audited Courses:** Students do not earn any academic credits for audited courses taken. They do not count in the calculation of "attempted credits." Students can find additional information in the Kingdom College Undergraduate and Graduate Catalog or contact the Registrar's Office.
- **Pass/Fail Courses:** These credits do count within the total of attempted and earned credits.
- **Transfer credits:** Credits accepted for the student's academic program or degree are counted when measuring the maximum time frame to complete the degree or program. While credits may be accepted towards a Kingdom College degree, grades do not transfer. Check the College Catalog or contact the Registrar's Office for additional information concerning how transfer credits are evaluated.
- **Academic Re-Admission:** Kingdom College must count all prior credits attempted for determining the eligibility for federal aid programs of students readmitted.
- **Double Majors and/or Minors:** Students who receive/attempt to pursue a double major/minor will normally be expected to complete all degree requirements before reaching the maximum attempted credits allowed.
- **Change in Majors:** Students who change their majors will normally be expected to complete all degree requirements before the maximum attempted credits allowed.
- **Second Bachelor's Degree:** A student who has already been awarded a bachelor's degree may apply for a second degree only if the second degree is different from the first degree. Ordinarily, a second degree at the undergraduate level is discouraged, and a graduate degree is encouraged.
 - Students working towards a second bachelor's degree are no longer eligible for Federal Pell Grants and Federal SEOG Grants.

- Students are limited in how much they can borrow under the Federal Direct Loan Program and the Federal Perkins Loan Program. These limits are not increased for students working on a second Bachelor's Degree.

Quantitative Standards Definition

Students have a limited amount of time to complete their degree requirements. For a student to be considered as progressing normally, the student's ratio of earned credits to scheduled credits (or pace towards degree completion) must be no less than as shown on the following table:

When total scheduled credits are:	Earned Credits must be at least:
Less than 25 credits	50% of scheduled credits
25 through 50 credits	55% of scheduled credits
51 through 75 credits	60% of scheduled credits
76 through 100 credits	65% of schedule credits
101 through 125 credits	70% of scheduled credits
126 credits and above	75% of scheduled credits

Scheduled credits are those credits for which students were still officially registered at the conclusion of each semester's Add/Drop period.

Qualitative Standards: Grade Point Averages

Each School within the College, along with the Registrar's Office will monitor the qualitative standards for making progress. Standards are listed in the current Kingdom College Undergraduate and Graduate Catalog. Students who are allowed by their Dean and/or the Registrar to continue their enrollment of a probationary status will also be put on "Financial Aid" probation and will be expected to meet the same minimum standards outlined by the Dean and/or the Registrar for continued enrollment and federal aid eligibility.

However, in accordance with federal regulations, by the second calendar year of enrollment in a post-secondary educational program, the student must have at least a 1.667 (1.50 in CSOM) cumulative G.P.A. to be considered making satisfactory progress for continued participation in federal aid programs. Students who do not meet this test will be ineligible to participate in federal financial aid programs until this deficiency is corrected.

Grade Changes

If grade changes occur after the annual SAP review, for most students, grade changes will be factored into the student's SAP calculations at the time of the next formal evaluation. However, students who are receiving aid on an appeal (conditional) basis must resolve all incomplete grades BEFORE Student Services can make a final determination that they meet the satisfactory academic progress guidelines. Students must report any grade changes that impact their aid eligibility directly to the Office of Student Services. Grade changes must be submitted to the Office of Student Services by October 15 for fall semester aid applicants and by March 15 for spring semester aid applicants. Consult the College's Undergraduate and Graduate Catalog for additional policies concerning grade changes and appeals.

Procedures

Federal regulations require that these standards apply to all students, even to first-time aid applicants who have previously enrolled at Kingdom College, or to those who have not been formally placed on probation.

Financial Aid Probation

If the student has not reached the maximum number of scheduled hours and it is determined that the student has fallen below the completion ratio standards for satisfactory progress, the student will be placed on Financial Aid Probation and notified that his/her continued eligibility for federal financial aid assistance is in jeopardy. Students who fail to maintain the required minimum GPA will also be placed on financial aid probation. Students will normally be allowed only one probationary semester during their academic program.

Students on financial aid probation will receive a separate letter that will outline the academic requirements the student must meet in order to receive aid for the following semester. If the student on financial aid probation meets the terms of the probation, he/she will be permitted to continue to participate in the federal student aid programs for a subsequent semester. Students who have been placed on probation shall be considered to be making satisfactory academic progress for the purposes of receiving financial aid as long as the student continues to meet the academic requirements outlined in their probationary letter.

The Office of Student Services will review the records of students who are on financial aid probation at the end of each semester. If the student does not meet the terms of the probation, the student will forfeit eligibility for all federal financial aid programs.

Loss of Eligibility Due to Lack of Satisfactory Progress

A student who has lost eligibility to participate in federal student aid programs for reasons of academic progress can regain that eligibility only by enrolling at Kingdom College at his/her own expense and demonstrating that he/she is capable of completing a semester without any failures, incompletes, or withdrawals and showing the ability to complete his/her degree requirements in a more regular fashion. *The mere passage of time will not ordinarily restore eligibility to a student who has lost eligibility for failure to make satisfactory progress. Students who have been academically excluded from the College but who are subsequently given permission to re-enroll are not automatically eligible to continue to participate in federal, state, or institutional aid programs. Admissions decisions are totally separate from funding decisions.*

Right to Appeal

Students have the right to appeal any decision of ineligibility to continue to receive financial assistance. Appeals must be filed within 30 days of notification that aid eligibility has been lost OR 30 days after a semester begins (whichever comes first). An Appeal must be made in writing to the Director of Financial Aid. The appeal may not be based upon your need for the assistance OR your lack of knowledge that your financial aid was in jeopardy. An appeal would normally be based upon some unusual circumstance or condition that prevented you from passing more of your courses, or that required your withdrawal from classes. Examples of possible situations include documented serious illness, severe injury, or death of a family member.

Appeal Form: If you do not have grounds for an appeal, or if your appeal is denied, you may still be able to regain your eligibility for future semesters. This is done by enrolling at Kingdom College at your own expense, without financial assistance, and negotiating a plan with the Office of Student Services in advance for the conditions under which eligibility may be restored.

Appeal Approval Conditions: Appeals can only be approved if the Financial Aid Appeals Committee determines:

- that the student will be able to meet the College's satisfactory academic progress after the next payment period; or
- that the student has agreed to follow an academic plan that, if followed, will ensure that the student can meet the College's satisfactory academic progress guidelines by a specific point in time.

If an appeal is granted: Students whose appeals are granted will receive aid on a conditional basis for one semester. The conditions will be outlined in the letter sent to the student granting the appeal. The Financial Aid Appeals Committee will review the student's record at the end of the semester to determine his/her status for the following semester. Students who fail to meet the conditions outlined in their individualized academic plans during their conditional semester will normally not be allowed to submit a subsequent appeal.

Student Support Services

Kingdom College strives to meet the needs of all students. Our staff and faculty are among the elite, qualified and experienced at facilitating for students as well as advising and mentoring students. We surpass the guidelines shared by the U.S. Department of Education Equal Opportunity Centers Program. Currently, there are no limitations on students that we share these services, with one exception. We have criteria that must be met for academic support and accommodations for students with disabilities.

Accessibility and Resources for Students with Disabilities

“Student Responsibilities

A postsecondary student with a disability who is in need of auxiliary aids is obligated to provide notice of the nature of the disabling condition to the college and to assist it in identifying appropriate and effective auxiliary aids.

Documentation from the student should be provided to the Director Enrollment and Student Life with adequate notice. In response to a request for auxiliary aids, students may routinely be asked to provide supporting diagnostic test results and professional prescriptions for auxiliary aids. Kingdom College may request updated documentation if the supporting material that the student submits is older than three years old. We also may obtain our own professional determination of whether specific requested auxiliary aids are necessary. It is the student’s responsibility to deliver the necessary documentation to the instructors of the classes where accommodations are requested and approved.

Examples of Auxiliary Aids

Some of the various types of auxiliary aids and services may include:

- taped texts
- notetakers
- interpreters
- readers
- videotext displays
- television enlargers
- talking calculators
- electronic readers
- Braille calculators, printers, or typewriters
- telephone handset amplifiers
- closed caption decoders
- open and closed captioning
- voice synthesizers
- specialized gym equipment
- calculators or keyboards with large buttons
- reaching device for library use
- raised-line drawing kits
- assistive listening devices
- assistive listening systems
- telecommunications devices for deaf persons.

Technological advances in electronics have improved vastly participation by students with disabilities in educational activities. Colleges are not required to provide the most sophisticated auxiliary aids available; however, the aids provided must effectively meet the needs of a student with a disability. An institution has flexibility in choosing the specific aid or service it provides to the student, as long as the aid or service selected is effective. These aids should be selected after consultation with the student who will use them.

Who has to pay for a new evaluation?

Your postsecondary school is not required to conduct or pay for a new evaluation to document your disability and need for an academic adjustment. You may, therefore, have to pay or find funding to pay an appropriate professional for an evaluation. If you are eligible for services through your state vocational rehabilitation agency, you may qualify for an evaluation at no cost to you. You may locate your state vocational rehabilitation agency at <http://rsa.ed.gov> by clicking on “Info about RSA,” then “People and Offices,” and then “State Agencies/ Contacts.”

GENERAL EDUCATION REQUIREMENTS

Purpose

The general education requirements of the College will provide the knowledge, skills, and values essential to all academic disciplines. These courses will expose students to commonly recognized areas of knowledge, introduce students to diverse subject areas, and equip students with skills essential and necessary for careers and lifelong learning. Embedded in each course will be the recognition of the truth that all knowledge and skill has as its source the God of creation, Who imparts these gifts to mankind according to His mercy and grace.

Objectives

- The student will be able to demonstrate competencies in problem-solving, decision-making, and critical thinking through effective communication, reasoning, and the ability to use scientific and technological processes and procedures.
- The student will complete 1 semester hour of Orientation.
- The student will complete 3 semester hours of Technology courses.
- The student will complete 6 semester hours of English Composition.
- The student will complete 12 semester hours of courses in the Humanities and Fine Arts.
- The student will complete 11 semester hours in Natural Sciences (that include laboratory experiences) and Mathematics.
- The student will complete 9 semester hours in History and Social and Behavioral Science.
- The student will complete 12 semester hours in Biblical Studies.

**For an Associate’s degree, the student will complete 12 semester hours in one of four focus areas: Lay Counseling, Worship, Ministerial Administration, or Missions.*

**For a Bachelor’s degree, the student will complete 6 additional semester hours of electives in any area for a total of 60 credit hours in General Education.*

SCHOOL OF BIBLICAL STUDIES

CHAPLAINCY CERTIFICATION PROGRAM

Purpose

To provide, in a variety of settings, basic and advanced training in chaplaincy skills, helping skills, crisis intervention and counseling.

Objectives

Upon completion of this certificate the student will be able to:

- Identify the various roles of chaplains and the skills needed for each role.
- Demonstrate basic counseling skills in various situations, to include crisis, trauma, and grief.
- Share biblical and theological elements as part of a chaplaincy ministry.
- Understand current trends and issues pertaining to the roles of chaplains.

Chaplaincy is a calling and a powerful ministry. Chaplains serve in a variety of settings: Hospitals, jails, prisons, police departments, fire departments, denominational ministry, churches, military, crisis centers, team sports, athletics, corporations and counseling ministry. Chaplains serve an important role in caring for people in times of distress, trauma and natural disaster. Chaplains serve both in voluntary and paid capacities. To be effective, this requires a certain skillset. The Chaplain Certification Program provides for basic and advanced training in necessary chaplaincy skills, taught by experienced chaplains with doctoral degrees. Those that would benefit from this program include those interested in serving in the chaplaincy and those already serving as chaplains, looking to hone their skills.

During this experience the student should carry a larger case load as well as a more varied set of experiences within the mental health field.

COU 614. COGNITIVE BEHAVIORAL THERAPY (3 hours)**Prerequisites: COU 502, COU 506, COU 604**

The purpose of this course is to develop students' knowledge and skill in the cognitive-behavioral approach to therapy. Students will examine theoretical foundations, research findings, basic principles, assessment techniques, and the intervention strategies of cognitive-behavioral therapy. These examinations are applied to a wide variety of problems in individual, marriage, family, and social relationships and are framed within a Christian theological context.

COU 615. CHILDHOOD DISORDERS AND THERAPIES (3 hours)**Prerequisites: COU 502, COU 506, COU 604**

This course is designed as a comprehensive overview of mental and behavioral disorders and problems affecting children and adolescents. Students will acquire knowledge of the DSM-5 classification system as it pertains to various childhood disorders. Emphasis is placed on diagnostic techniques, etiology, and the primary treatment strategies for the disorders and problems studied. The course is designed to help students develop effectively as practitioners working with children, adolescents, and their families. This course is taught from a systemic perspective.

COU 616. Brief Approaches to Counseling (3 hours)**Prerequisites: COU 502, COU 506, COU 604**

This course is designed to provide students with an overview of brief approaches to therapy. Special attention is given to solution-focused and selected depth-oriented models and their practical application in the ministry setting. Major emphasis will be placed on skill development and implementation through case discussions, experiential exercises, role-plays and simulations which integrate theory with practice.

DANCE (DAN)

DAN 101. DANCE 1 (3 hours)

Introduction to tap, ballet, and jazz dance through theory and practice at the beginning level.

DAN 111. TAP TECHNIQUE 1 (3 hours)

This course introduces the basics of tap techniques.

DAN 121. BALLET TECHNIQUE 1 (3 hours)

This course introduces the basics of ballet techniques.

DAN 131. JAZZ TECHNIQUE 1 (3 hours)

This course introduces the basics of jazz techniques.

DAN 141. WORLD DANCE (3 hours)

An introduction of dance movement as it relates to various cultures.

ENGLISH (ENG)

ENG 099. Preparatory Writing (3 hours)

This class is designed to prepare students for English Composition at the college level.

ENG 101. ENGLISH COMPOSITION I (3 hours)

Prerequisite: A grade of C or better in a remedial English course, or a sufficient score on the English placement exam, or a score of 20 or better on the ACT test or equivalent SAT score. The student's grade point average and grades in high school for English may be factored in and an advisor may make this placement with a documented recommendation.

English Composition I provides instruction and practice in the writing of at least six (6) extended compositions and the development of analytical and critical reading skills and basic reference and documentation skills in the composition process. English Composition I may include instruction and practice in library usage.

ENG 102. ENGLISH COMPOSITION II (3 hours)

Prerequisite: A grade of C or better in ENG 101

English Composition II provides instruction and practice in the writing of six (6) formal, analytical essays, at least one of which is a research project using outside sources and/or references effectively and legally. Additionally, English Composition II provides instruction in the development of analytical and critical reading skills in the composition process. English Composition II may include instruction and practice in library usage.

ENG 201. AMERICAN LITERATURE I (3 hours)**Prerequisite: ENG 102**

American Literature I is a survey of American literature from its inception to the middle of the nineteenth century. This course is a continuation of World History I. It surveys world history, both western and non-western, from the early modern era to the present.

LAY COUNSELING (LCS)

LCS 101. LAY COUNSELING I (3 hours)

Introduction to lay counseling.

LCS 111. LAY COUNSELING II (3 hours)**Prerequisites: LCS 101**

Study of basic biblical knowledge as it relates to personal problems, helping people, and the person and work of the Holy Spirit.

LCS 121. LAY COUNSELING III (3 hours)**Prerequisites: LCS 111**

Introduction to concepts and techniques of key approaches to psychotherapy and counseling. Discussion includes the practical applications and empirical support of each counseling approach.

LCS 131. LAY COUNSELING IV (3 hours)**Prerequisites: LCS 121**

Study will expose students to formulating a biblical way of looking at personal and interpersonal problems of life within marriage and the family.

MATHEMATICS (MTH)

*Remedial or introductory and does NOT meet the requirements to transfer to most universities

***MTH 99. ELEMENTARY ALGEBRA (3 hours)**

Prerequisite: Appropriate mathematics placement score

This course is a review of the fundamental arithmetic and algebra operations. The topics include the numbers of ordinary arithmetic and their properties; integers and rational numbers; the solving of equations; polynomials and factoring; and an introduction to systems of equations and graphs.

***MTH 100. INTERMEDIATE COLLEGE ALGEBRA (3 hours)**

Prerequisite: MTH 99 or appropriate mathematics placement score

This course provides a study of algebraic techniques, such as linear equations and inequalities, quadratic equations, systems of equations, and operations with exponents and radicals. Functions and relations are introduced and graphed with special emphasis on linear and quadratic functions. This course does not apply toward the general core requirement for mathematics.

MTH 110. FINITE MATHEMATICS (3 hours)

Prerequisite: All core mathematics courses must have as a minimum prerequisite high school Algebra I, Geometry, and Algebra II with an appropriate mathematics placement score. An alternative to this is that the student should successfully pass with a C or higher Intermediate College Algebra.

This course is intended to give an overview of topics in finite mathematics together with their applications. This course will draw on and significantly enhance the student's arithmetic and algebraic skills. The course includes sets, counting, permutations, combinations, basic probability (including work with Binomial Distributions and Normal Distributions), matrices and their applications to Markov chains and decision theory. Additional topics may include symbolic logic, linear models, linear programming, the simplex method, and applications.

MTH 112. PRECALCULUS ALGEBRA (3 hours)

Prerequisites: All core mathematics courses must have as a minimum prerequisite high school Algebra I, Geometry, and Algebra II with an appropriate mathematics placement score. An alternative to this is that the student should successfully pass with a C or higher Intermediate College Algebra.

This course emphasizes the algebra of functions – including polynomial, rational, exponential, and logarithmic functions. The course also covers systems of equations and inequalities, quadratic inequalities, and the binomial theorem. Additional topics may include matrices, Cramer’s Rule, and mathematical induction.

MINISTRY (MIN)**MIN 101 MINISTRY HELPS (3 hours)**

This course offers an overview of what ministry means and defines specifically the purpose of ministry helpers with the church setting or other religious organizations and community service groups.
